Maurice,

I wanted to take a few minutes to email you and to commend Luis Cordova for his leadership. I have been in the engineering and construction industry for 30+ years and have worked with hundreds of engineers and contractors on 3 continents and in over a dozen countries. During these 30+ years while on a wide variety of projects I have met very few people with the integrity and honesty that Luis exhibits on a daily basis.

Although our project "stumbled" at LS 202, Luis never lost his composure, his integrity or his ability to deal openly and honestly with the City and I wanted you to know that I commend him for this. Additionally, his actions are a direct reflection of you and your company and I commend you for developing and nurturing the type of work environment where people like Luis can excel. He is a good man.

In closing, I want to wish you and the entire Intercounty staff a wonderful and safe holiday season and the very best for a prosperous New Year!!

Yours truly,

City of Boynton Beach
Utilities Department
